**BLACK AND WHITE PHOTOGRAPHY COMPETITION**  
**ORGANISED BY THE GERMAN PHOTOGRAPHY ASSOCIATION**  
**DVF LANDESVERBAND BAVARIA**

Exhibition of 100 accepted photographs out of 478 submitted in the Mindelheim Museums/Museen im Colleg, Hermelestr. 4, Mindelheim

19 November 2022 to 29 January 2023

This year's black-and-white photography competition, organised by the German Photography Association and hosted by the Fotoclub Mindelheim, has no thematic restrictions. Judging by our experience in past years, the photos presented in the Mindelheim museums will be truly masterful and will give evidence of the high proficiency of ambitious photographers.

Ever since the beginnings of photography in the 19th century, very sophisticated artistic developments have been taking place alongside the field of purely casual and

utilitarian photography.

This field of art is constantly advancing, finding new themes and expressive possibilities, aided as it is by the immense possibilities offered by modern image processing.

Because black-and-white photography is limited to the basic shades of black and white and thus produces images of greater concentration in comparison to colour photography, the works created are distinguished by their powerful intensity. This special exhibition therefore complements the exhibits held in the Mindelheim museums by presenting works of contemporary photographic art.

# BLACK WHITE
